

What if...

...there was a dance company where brilliant and daring people could show up and be supported to push themselves to move the world forward.

Welcome to Rambert

Three very different short pieces, the sum of their parts, a showcase of what makes Rambert Rambert. The three choreographers come from different worlds, but all three combine virtuosic dance with storytelling. And these two qualities display the diverse and awe-inspiring talents of Rambert's dancers who brilliantly switch it up and dive into different styles.

Following the Subtle Current Upstream

(Premiere: Alvin Ailey American Dance Theatre at New York City Center, 2000)

In Alonzo King's own words, "everything that exists in nature is seeking to return to its source. The child runs to its parents, and the river seeks the ocean. Salmon return from the sea to reach their original spawning grounds." Human beings have one thing in common – we want to avoid pain and suffering and we want a happiness that is ever fulfilling and never goes stale. Joy is the goal. *Following the Subtle Current Upstream* is about how to return to joy.

Eye Candy contains some strong language and confronts questions around body image: the dancers perform dressed in silicon "nude" suits (minus visible genitalia), giving the impression of nudity while being fully covered. Cerberus contains themes and mild depictions of death.

Eye Candy is supported by the *Embassy of the Kingdom of the Netherlands*.

Eye Candy and *Cerberus* have been made possible thanks to the support of the *Rambert Commissioning Council*.

Thanks to the government's Culture Recovery Fund we can continue to be #HereForCulture
