

CREATING THE MIDDLE CONTINUED...

Year 3 Lesson Plan 8

This lesson will support your children to develop the middle of their creative writing.

Last lesson you wrote the middle of your class story

Read through it:

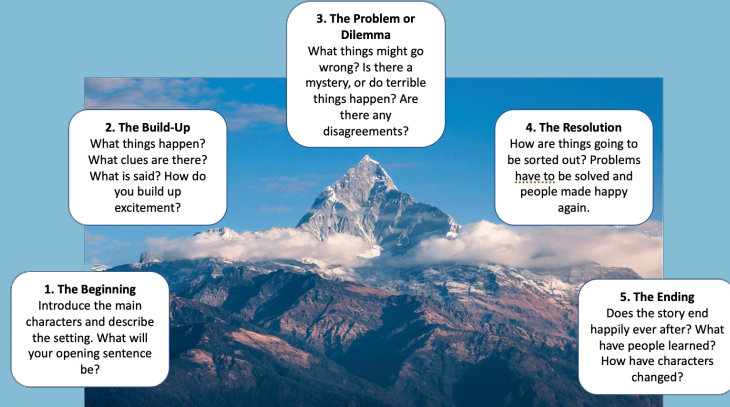

What is good about it?

Is there anything that we could change?

Remember the middle of your writing should include the rest of *The Build-up* and *The Problem (Climax)*

It should be 2 or 3 paragraphs more but not include the ending.

Make it exciting!!

This picture can be included in your story.

If you haven't already introduced them you could do so in this part of your writing.

Now re-read your opening and you're ready continue with the middle.

Ask the children to share their middles

Does it link to the beginning?
Is it ready for the ending?

Remind the children that all writers edit their work to make sure
that they are using the very best words and phrases.
